THE GRAND PROMO-TELS OF HEALTH. HOLLOWAY'S PILLS.

The grand secret of attaining happiness is to secure good health, without which life is stripped of a lifts pleasures. The first irregularity of any function should be checked and set right by appropriate doses of these fine purifying Pills, which strengthen the system by thoroughly cleaning the blood roun all imparities. They bainned disordered action, remove the cause of disturbance and restore its normal and natural power to every organ, without meanvenience, pain or any other disawback. Derangement of the Bowels, Liver and Stomach

Derangement of the Bowels, Liver and Stomach Complaints.

This medicine is so well known in every part of the world, and the enres effected by its use are so wonderful as to astonish every one. Its pre-emblence as a remealy for billious and liver complaints and derangements of the etomach and bowels, is no longer manter of dispute or doubt. In those diseases the ben heial effects of ifolloway's invaluable Pulis are so purmanent and extensive that the whole system is renovated, the organs of digestion strengthened, and unit and easy assimilation promoted, so that both physical and moral energy, we increased,

War Clouds.

War clouds are gathering thick and fast in the horizon of Continental Europe. An alarming state of uncertainty exists everywhere. The Greeks continue to fan the flame of discontent between the Porte and its rebellious Christian subjects. Russia is drawing near to the Turkish frontier with an evident design of overwhelming with her mighty armies the forces of the Sultan and driving them back into Asia. Prussia is loading her needle-gun to retain the territory that a ten days' campaign carned for her last summer. Austria is taking precautions against losing more ground, and preparing to strike to regain her lost Provinces, by restoring to Hungary its Constitution and placing a breech-loading rifle in the hands of every soldier. Italy, fully alive to coming danger, is watching with jealous eye the movements of her Gorman neighbors upon one side and His Holiness the Pope on the other. Denmark, Holland, Switzerland, Spain, Portugal, Greece and Belgium are all engaged in warlike preparations. And Napoleon-the master hand at whose beck all the continent- tress that belong to a class of tender relaal puppets will begin to dance-casts a wistful eye across the Rhine and longs to measure weapons with the powerful rival whose bold and successful strokes so recently changed the map of Europe. All the powers, great and small, are panting for war-a war that will bring in its train misery and ruin to millions of human beings. mutual confidence, feel that the supreme Human nature is the same to-day as it was centuries ago. The growth of | which is to come, and to inculcate that feelcivilization and the spread of intelli- ing to others is their joy. They claim not gence have changed all else save the earthly fame or riches; their title is to a treainherent savageness of man. Blood- sure in the sailes- the knowledge they letting is as great a science to-day as it ever was, and the nation that pos- zeal is fruitful, assuaging the sorrows of sesses the most improved principle those that are hid from the public gaze, for assisting man to "shuffle off this and can only be reached by the tender mortal coil" with expedition, will sympathy of a feeling heart, that can drop a prove the victor in the coming shock. The Eastern question is the only continental entanglement that Great Britain has to drag her into difficulty ; and should Russia remain (which is every other continental power is en-

The Russian Treaty Ratified. Our special despatch announces the ratification of the treaty whereby Russia agrees to sell and the United States agrees to buy all that tract of land lying north and west of the 60th degree of latitude and known as the The importance of this purchase can-States control of a strip of seabcard, ing duty, and they hopefully anticipate, that ten leagues in width, from Fort Simpson to the 60th degree of latitude. Award that power San Juan Island, and Great Britain will have scarcely very few, that the St. Ann's Society is exa foothold of coast on the Pacific that clusively Catholic. It is Catholic, but its she can call her own, or with which, charity is what the word Catholic implies in case of war with our neighbor, she would not find it next to impossible to wide, powerful moral influence in support of John Bull, in America is being hommed in by Brother Jon. athan in a manner much more forcible than agreeable; and if the Duke of Buckingham really stated, as reported, forsaken, whether the object that demands that the cession of the Russian terri- their sympathy was born a heretic or a tory to the Americans is a matter of schismatic-all such feelings are hushed in indifference to Her Majesty's Government, he was either ignorant of t e subject on which he spoke, or the Home Government is trying to rid and Russia is cordial, and although the Baptist, or the Quaker, more nobly emcession of this territory does not indicate an alliance offensive and defensive between the two powers, it would seem that Russia is preparing for trouble on the Eastern question, and is endeavoring to buy the moral support and sympathy of America in the struggle which the whole world is aware must soon take place.

The Capital Question.

A remarkable contradiction exists between Governor Seymour's message about the seat of Government and his remarks upon the same subject at the prorogation of the Legislative Council. In the message His Excellency says: "I was told by an influential person that it was the intention of the Government that the seat of Government of British Columbia should be at New Westminster." Now, if such were the "intention" of the Home Government, it would follow that the situation of the Capital was at least undecided; but in the Prorogation Speech the Governor says that the "Seat of Government is fixed by law, honor," &c., "at New Westminster." By what law? Was such an ordinance passed during the two or three days of Coughs, Colds and Consumption.

that elapsed between the writing of By Glectric Telegraph the message and the delivery of the speech? Certainly not. The "intention" of the Home Government is not law; and the fact that the first drafts of the Union Bill contained a clause providing that the Seat of Government should be fixed at New Westminster, but which was struck out by order of the Home Government, clearly shows that the question is an open one, and that the people of the Colony have a right to try and influence Her Majesty's Government to place it where it will be most convenient for the largest number of inhabitantsaccessible at all seasons and in all weathers-where the Government may be most economically administered, and where it will be most uses ful to the great mass of its citizens. Unquestionably, the only place in the Colony possessing all these advantages

is Victoria, and the Governor will sooner or later discover-if he be not already alive to the fact-that the attempt to build up two towns in such close proximity as Victoria and New Westminster, must result disastrously

The Entertainment in Aid of the Thirty-two Orphans of the St. Ann's Convent.

The poor their clients, and Heaven's smile their fee. (COMMUNICATED.)

Friend, parent, sister-tender names There are in the feelings of some natureswhich have less of earth in them then Heaven-that can bind together in a circle the various sympathies, affections and distions. It is beautiful to observe these affections arise out of each other in domestic circles, but is it not greatly enhanced when we see the same principle extended to those who claim no ties of kindred or relationship beyond that of nature ! To this sacred duty kind women-" The Sisters"-have devoted themselves, and within the sanctuary of their own mutual affections and concern of moral beings relates to the life sure in the skies-" the crown of glory that acquire is such as distress teaches. Their

tear of pity, or brighten with a smile of loving kindness the helpless and the careworn sufferer. Shall we trace one of the Sisterhood to yonder poor hed, to the beggar's roof ? The foor is damp; it is the abode of misery; upon a wretched pallet lies a not likely) a passive spectator while human form; the immortal soul is passing from its clayey tenement; no relative gaged in deadly conflict, there will be attends to smooth the pillow of the dying; no occasion for interference on our but there stands a woman! An infant's wail is heard; she hears the short, deep gasp, and then the parting groan. But the now motherless child? She is clasped to a heart where truth and love abides. She is now an Orphan adopted by the Sisters of St. Ann's. The infant is nourished; it grows up to childhood: it is taught; the little hands are joined in prayer to Him who sees in secret; it is taught to bless its Heavenly Father for its inwadlife, and to look to a higher life. NEW YORK, April 10 .- The Great Eastern leaves on the 16th. Not over three hundred passengers have been secured.

New York, April 10 .- The Herald has the text of the Russian Treaty. Article 1 fixes the eastern line as established by Russia and England, and the western line, including the Alutian Islands, east of 193 meridian. Article 2 cedes all the public buildings except the churches, and cedes the archives and documents relative to the territory. Article 3 provides that the inhabitants who choose to remain, except uncivilized tribes, shall enjoy all the rights, advantages and immunities of citizens of the United States. Article 4 provides that the cession with the right of possession shall be complete on the ratification. Article 5 provides that immediately after the change the military posts shall be given up, and as soon as practicable the troops will be hereby declared free and unencumbered by any reservations, privileges or franchises granted by Russia.

Canada.

TORONTO, April 10 .- Six gunboats are ready

The Herald's Buffalo special dispatch says the commander at Fort Erie has notified the authorities that a prominent engineer has been taking plans of the frontier below the Suspension Bridge, and asks that reinforcements be stationed at the village of Niagara. It is feared that the Fenians intend another move-

Europe.

Londow, April 10 .- The Spanish Governnent refused to yield to the demands of England for indemnification in the case of the

ATHENS, April 10 .- The Sultan threatens to declare war against Greece, on account of the

NEW YORK, April 11:-The advices from the Continent show that war preparations are going on in all quarters. The Herald's Paris letter says a general organization for operations in the Eastern provinces of Turkish Greece is completed. War is inevitable, and in that event the power of the Porte in Europe will be destroyed. Denmark, Holland, Switzerland, Spain, Portugal, Greece and Belgium are all engaged in warlike preparations.

in the north of Ireland.

California.

SAN FRANCISCO, April 10 .- It is understood that at a recent meeting of the directors of the California Steam Navigation Company it was resolved to withdraw from all competition in coast navigation, and hereafter to confine the business of the company to river navigation:

Vested Interests of New Westminster.

MESSRS EDITORS :- Pursuing the same happy-go-lucky train of thought I indulged in the other day: supposing anybody in 1865 were writing to his anxious 'friends in England an account of these parts, and were getting upon the subject of towns in general, and towns in British Columbia in particular, what would he say about New Westminster? I have no doubt he would say, with perfect truth, " New Westminster is the Capital of British Columbia," because he would use his eyes and see what staff of officials the country boasted of, and whatever Legistheir Church. Female agency has a high lative imposture there was were centered in that town of much cry and little wool. He would not trouble himself much about pro-But the faithful Sisters of St. Ann's ask not, clamations or enactments, but he would judge of the fact by the evidence of his senses, and he would say: "New Westminster is the Capital of British Columbia and Victoria of Vancouver Island."

The fact is, the Capital of British Columbia was never created by proclamation, it was only changed by proclamation. Langley was thr Capital by the mere exercise of the royal prerogative, as expressed de facto by the herself of her Colonies. The under-standing between the United States the sufferer? Was the Protestant, or the tive, or the person directing the royal prerogative, found it had made a mistake, or thought it had made a mistake, the rova prerogative intimated to the world its own sense of having blundered, and caused the fact of its blunder having been made to be made patent to the world, by a proclamation having about as much the effect of law as ar advertisement of Warren's Blacking or the intimation of a prize fight-a proclamation having the force and motive of publicity only, and a proclamation which would never have been required and never been mad had not a change of locality in the Capital taken place:

To read the debates on the Capital question, one would really suppose that Capitals were made by proclamation, and there could not be a bona fide genuine Capital, and no mistake, without a document to prove it signed by the Governor and countersigned by some flat or another, by order of His Excellency, sealed with red wax, I dare say, and tied up with red tape. The contrary is notoriously the case. The absence of a proclamation or aformal document, proves the acquiescence of all in an established order of things, and the existence of the proclamation calling New Westminster a Capital is a proof of confusion and doubt, rather than of anything else, and a simple acknowledgment of the necessity of change. All this means: In the year 1865 two Colonies existed side by side and independwithout an attempt to dislodge it, by universal acquiescence and copsent. In British Columbia, New Westminster was the capital, with the disadvantage of having been erected anew after a bad shot had been once made. capital city of its respective Colony? At the very least they had equal claims.

Who, in 1865, could have disputed that Victoria was to Vancouver Island what New Westminster was to British Columbia-the seat of Government of the Province. So far each had equal rights.

SAM. SPEEDWELL.

The Late Contest.

MESSRS. EDITORS :- I propose giving tersely my views on the late coutest. I think the exception taken by "Vox" to the leader of the Morning News was correct, but that he used too strong language in making it. A bad cause taken up by a bad man was effectually damned on "An Humble Disciple of Knox's" identity being discovered. The Governor ought to have been praised instead of abused for his reply to the reverend gentleman; the latter is a member of the Canadian Pres bytery, not of the Free Church as was stated by some one. The parties took a wrong ground for their fight in discussing the respective status of the representatives of royalty and the clergy from an old country point of view there the law has decided as to their social rank. In the colonies, where there is no established church no distinction is made by the legislature; it rests with the Governor to withdrawn. Article 6 says the cession is recognise as his social equal who he may think fit, be he episcopal, bishop, methodist presbyterian, minister or layman.

A TERRIBLE DRAMATIC URITIC .- It is for tunate for the actors in our theatres at the present time that theatrical criticism does not take the form it did some years ago—in one instance, at least, in Washington. Hon James Blair, who was a representative in Congress from South Carolina from 1821 to 1822, and from 1829 to 1834, attended a play at Washington Theatre, one evening early in March, 1834, when in a state of partial intoxication. The performance displeased him to that degree that he drew his pistol and fired at the actors on the stage, the bullet passing above the head of Miss Jefferson, daughter of Joe Jefferson, Sr. The actors all stampeded from the stage, and a quick curtain was rung down. Presently, Mr lu-gersoll, the stage manager, appeared looking pale and agitated, and said to the audience. "Ladies and gentlemen, if there is to be shooting at the actors on the stage, it will be impossible for the performance to go on." About three weeks afterwards, Murch 27, 1834, Mr Blair blew out his own brains with pistol, at his boarding house on Capitol

Collection

Holloway's Pills.—Enfeebled Existence.—This medicine embraces every attribute required in a general and domestic remedy; it overturns the foundations of discase laid by detective food and impure air. In obstractions or congestions of the liver, lungs, bowels, or any other organ, these Pills are especially serviceable and eminently successful. They should be kept in readmes in every family, as they are a medicine without a fasit for young persons, and those of feeble constitutions. They never cause pain, or irritate the most sensitive nerves or most tender bowels. Helloway's Pills are these thomas purifiers of the blood, and the best promoter of absorption and secretion, which remove all poisuo and oboxious particles from both solids and fluids,

Inflammatory Eruptions.—Few diseases of the skin that are not marked by constitutional symptoms, are so damerous as Eyspheda. Best statement symptoms, are so damerous as Eyspheda. It is the statement of the statement of

Another Medical Triumph -- Wonderful cure of Another Medical Triumph.—Wonderful cure of rebunatism; none more difficult to relieve; yet a case Which, for thirty years, had buffled the Faculty, has, it appears, been completely cured. The particulars are given, with expressions of astonishment at the result, in many of the western journals. They state that John Roche, of Clevelland, Onto, aged fifty six, years, had, for the greater parofinis life, endured forments of the most terrible description. His limbs had been racked, and contorted by pain and unseular codtractions, until his knee-jounts were of the size of a man's head, and his fingers knowled and drawn up, until they resembled the claws of a brid of new core; then human hands, while a sections were of the size of a man's head, and his fingers knotted and drawn up, until they resembled the claws of a bird of prey more than human hands, while a seroticious tendency in the blood was indicated by blotches and pustules on various parts of his body. In this dire condition he began to use Bristol's Sugar-cented Pills, in conjunction with that great notidot to the virus of the Pills, in conjunction with that great notidot to the virus of the Pills, and eight bottles of the sursaparilla, refleved him from every vertice of pain; and, although his limbs and joints have been only nartially relaxed (for they were beyond absolute cure), he is now well, cheerful and able to attend to his business. The Pills are put up in glass vails, and will keep in any climate. Both medicines are obtainable of all druggists.

ALL DENOMINATIONS.

PATRONESSES: MRS SEYMOUR.

President-Mrs. HILLS. MANAGING COMMITTEE: Mrs Harris.

Mrs R Woods. Hon: Secretary—DEAN CRIDGE, Hon, Treasurer—J. G. SHEPHERD, Esq. MEDICAL ATTENDANTS.

REPORT. From 1st January, 1866, to 31st March, 1867.

The committee are happy to report that, notwithstanding the depressed circumstances of the times, they have continued to extend the benefits of the Institution to the sick and afflicted. Since the last Report nine patients

afflicted. Since the last Report nine patients have been admitted; one has died, and eight have been discharged convalescent.

In order, however, to enable them to do this, they have been compelled to reduce the allowances to their efficient nurse and matron, Mrs. Ford, during the period; when there are no patients in the Infirmary.

It will appear from the Treasurer's report that the total contributions have amounted to \$1320, while the total expenditure on behalf of the patients has fallen short of \$1050. It is obvious, therefore, that, but for the debt which presses upon the institution, there would have been a considerable balance to its credit. The committee view this as an encouragement to committee view this as an encouragement to ersevere in this benevolent work.

persevere in this benevolent work.

To grard the institution against needless expenditure, paying patients have been required to make some payment in advance, as this duty is sometimes forgotten after the benefits have been enjoyed. It is pleasing, however, to notice more than one case in which, without any engagement, discharged patients have testified their appreciation of the blessings they have received, by becoming liberal contributors to the funds.

A series of lectures and concerts, under the auspices of the Bishop and Mrs. Hills, has netted upwards of \$230 towards the liquidation of the debt and of the interest thereon,

tion of the debt and of the interest thereon which now amounts to \$7.72; but it is hoped that the vote of \$250 made some time ago b that the vote of \$250 made some time ago by
the House of Assembly will be paid by the
Government and assist to relieve the Institution of this burden.

Mrs. Seymour has kindly consented to become a Patroness of the Infirmary.

In conclusion the committee would thank
the subscribers and donors for their benevothat librations and bear they would not fail to

the subscribers and donors for their benevo-lent liberality; and here they would not fail to mention the great obligation which the sub-scribers, patients, and managers, are under to the careful attention of the medical gentlemen who have given their valuable and gratuitous services to the charity. They would express their firm belief that an institution which extheir firm benefits to all, without respect to nationality or denomination, will not be suffered to languish for want of funds. They would still appeal to the women of this colony not to look couldy on a work which is so calcolated to conduce to the comfort and eleva-tion of their sex. The managers may some-times feel a difficulty in drawing a line as to the cases which deserve admission, but they believe that the subscribers will fully bear them out in the view that, while they should guard the Institution against being made the starting upint for a fresh career in vice, they starting point for a fresh career in vice, they should never turn away a poor perishing out-east, by whatever causes her affiction may have been produced.

E. CRIDGE, Hon. Sec.

THE BEWITCHING NEW FASHIONS .-" Mark Twain," writing from New York to a California paper, thus discourses upon the new fashions: Who shall describe the exquisite taste and beauty of the new style of ladies' walking dresses? Taken as a class, women can contrive more outlandish and ugly costumes than one would think possible without the gift of inspiration, But this time they have been felicitous in inventions, the wretched waterfall still remains, of course, but in a modified form; every change it has undergone was for the better. First it represented a bladder of Scotch snuff; next it hung down the woman's back like a canvas covered ham; afterwards it contracted, and counterfeited a turnip on out behind, and looks like a wire muzzle on a greyhound. Nestling in the midst of this long stretch of head and hair reposes the little batter-cake of a bonnet, like a jockey saddle on a race-horse. You will readily perceive that this looks very unique, and pretty, and soquettish. But the glory of the costume is the robe-the dress. No furbelow, no flounces, no biases, no ruffles, no gores, no flutterwheels, no hoops to speak of -nothing but a rich, plain, narrow black dress, terminating just below the knees in long saw teeth (points downward) and under it a flaming red skirt enough to put your eyes out, that reaches down to the ancle bone. and exposes the restless little feet. Charming, fascinating, seductive, bewitching! To see a lovely girl of seventeen, with her saddle on her head, and her muzzle on behind, and her veil just covering the end of her nose come tripping along in her hoopless, redbuttoned dress. like a churn on fire, is

this subject -- I can't stand it. THE GOVERNOR'S SUMMER RESIDENCE-If Dame Rumor is to be believed, Governor Seymour declines to inhabit Government House during his stay at Victoria, and has leased for the summer months the Admiral's residence at Esquimalt, which is to be immediately fitted up for the reception of the august party. The reasons given for selecting the Admiral's residence are that Government House is damp and requires extensive repairs, and that its situation is bleak, and consequently unsuited for the residence of per sons in a delicate state of health. Thus has \$50,000 been worse than squandered in the purchase of Cary Castle and the erection of the unsightly pile of buildings on the sum. mit of a great rock in a locality exposed to every wind that blows. Governor Kennedy never made a worse selection than when he took the advice of a professed friend and a notorious demagogue to buy Cary Castle first and consult the Assembly afterward. A more unsuitable location for a Government House could not well be imagined than the site of the Castle; but the Governor having declined to inhabit it, we hope that any extra expense to which he may be put by taking up his residence at Esquimalt will be defrayed from His Excellency's private purse.

enough to set a man wild. I must drop

A PROBABLE OPPOSITION .- The California steamship companies, after a long and well fought battle with the Anchor Line, will, according to appearances, have but a short period of recuperation before they will be again called upon to resist the establishment of the deleded masses of their countrymen: of an opposition line under the auspices of Captain Wright, an old and well known steamship man. Under date of New York, April 6, the telegraph informs us that a new steamship named the Cleopatra, of 1400 tons, had been launched that day. It states that she was built for one Arthur Leary, and was intended for the Pacific Coast trade. Steamship men are not cognizant of the existence of any capitalist named Leary, and give it as their opinion that he is but the agent of some San Franciscan, probaby Wright. It will not be long before some

Wright. It will not be long before some move is made in this matter.—Oregon Herald.

The Econont—Captain Inglis, of the Telegraph Company's ship Egmont, now lying in Esquimalt harbor awaiting orders, entertained a number of friends at lanch a few days ago in a manner worthy the commander of so fine a ship. The guests were shown the tank containing the submarine cable for tank containing the submarine cable for Behring's Straits, the machinery for hoisting and packing up the same, in case of accident, several interesting specimens of heathen idels, implements of war, etc., obtained at Easter Island, in the Pacific-1500 miles from any known land-with other curiosities. The terrible (?) dungeon in which the obstroperous carpenter of the Egmont was confined for a week was also shown. It is really a comfortable cabin, and were we about to engage passage for a trip around the Horn, we should ask no better quarters.

OCEAN MAIL SUBSIDY .- It is reported that Government has renewed its negotiations brain with the owners of the Active for an ocean mail service at a less rate than was formerly paid, but at an advance on the sum (\$500 per month) proposed by the Council;

TIMES .- Times are picking up on Puget Sound in consequence of an increased demand for lumber. Shipbuilding is also getting to be a business of considerable importance. At Port Townsend, the Calhoun Bros., are building a schooner of two hundred tons for the freighting and building business which they hope to have affoat early the coming season. In Kitsap county we heard of a large vessel being built at Seabeck. A small screw steamer is in the frames at Port Madison, while a screw steamer is nearly finished at Port Orchard.-Puget Sound Weekly.

HAYTI.-The revolution in Hayti was led by Victor Chevalier who was exiled some time ago, but landed recently at St. Marks. General Dagis, who was elected President, together with the Suburban Thursday, April 18, ministered by the Principal Secretary of State. Salnave has returned to Hayti and taken command of the Northern Department. All was quiet at the latest advices. The revolution is followed by peaceful political movements. General discontent and the embarrassed condition of the Treasury were the causes of the revolution.

FOR NEW WESTMINSTER .- The Enterprise left for New Westminster vesterday morn-There were about 75 passengers for the different mining camps, and Messrs Ball, Birch, Stapleton, C. W. Wallace, Rev Mr Jamieson and others for the "capital." She had also on board considerable freight. The Isabel has been withdrawn from the route for

THE NATIONAL COLLEGE OF BUSINESS AND COMMERCE is the title of an institution lately opened at Portland, Oregon, the object of which is "to prepare young and middle-aged men for business life," We have received the first number of a journal called the Gazette issued by the college, which contains several useful hints for the guidance of business men.

NEW SPRING GOODS .- AT VICTORIA HOUSE (corner of Fort and Douglas streets,) are now being unpacked the first instalment of their the back of the head; now it sticks straight spring goods received by last steamer, comprising novelties in dress materials for spring and summer wear, Ladies' and Children's Mantles and Jackets, Hats, Bonnets, &c., &c.

DESTRUCTIVE FIRE .- A despatch from St Louis, Missouri, announces the total destruction by fire of the Lindell Hotel-said to be the largest building of the kind on the continent if not in the world. The loss was \$1,600,000!

THE NEW SPRING BONNETS have made their appearance here. They are very pretty —what there is of them to admire. In appearance and size they are not unlike an American ten cent stamp tied around with a obweb.

WATERLOGGED -The American bark Veron, lumber laden for San Francisco, was reported in the Straits yesterday, waterlogged. She encountered a severe gale outside the Straits and is on her way back to refit.

TRADES LICENSES .- The High Sheriff notifies all defaulters under the Trades License Act that the roll has been handed o bim, and that he will proceed forthwith to collect the tax with five per cent added.

SALE OF RAAL ESTATE. - Copland's two brick ouses with lot, on Pandora street, were sold yesterday for \$1550 by Mr. Backus, and a lot on Waddington alley was disposed of by the same auctioneer for \$600.

" Found DEAD."-The Coroner's jury res turned this verdict in the case of the lodian woman found dead near Cadboro Bay, on Sunday.

THERE are now twenty eight square rigged vessels on the Sound taking in cargoes of lumber and spars.

THERE was not a single case in the police ourt yesterday.

THE bark Lono, Howard, will sail to-day for Honolula, S. I.

How the Feniab Leaders Bumbugged their Followers.

Miss Ellon O'Mahony, who resigned her position as a school teacher in Chivago that she might devote hersell to the success of the Fenian cause, is now engaged writing the history of the organization for the New York Weekly News. Her revelations are under the suggestive title of "Fenian Patriots and Plunderers," the plunderers, by her accounts, being in the majority among the leaders of the organization. In her last chapter she relates some instances of the methods to which the Fenian orators resort-

Carried away by the wildest enthusiasm the most absurd statements were applauded, even while we could no, at all credit them The broadest exaggeration received not our censure—were not even criticised. To show censure—were not even criticised. To show how often misstatements were resorted to at these meeting, the following case gives some idea :

The meeting to which I allude was a very large one. At this time the men at home were making preparations to "strike the blow" before the New Year. Stephens had told them sufficient assistance would be sent them, but Stephens told this on his own responsibility. * * * At this meeting sponsibility. * * * * At this meeting however, eloquent speakers impressed upon

A deep silence fell upon the amazed multi-tude. Then the uncontrollable applause burst forth until the lofty roof rolled back its echoes in reply.

After the adjournment I asked the crator of the evening to show me the paper containing the important news. It was merely a telegram on business, taken from his pocket for illustration at the exciting moment!

Libels on the Flowers.—The incense breathing blessoms of every clime are intamously libelled by parties who attach the names of these exquisite products of nature to preparations manufactured from pungent essential oils. Murray and Lamman's Floridar Water, for thirty years the standard perfune of Spanish America, is frequently situalated by impostors, whose preparations are not only worthless, but deleterious to health, producing a pernicious effect upon the brain and nerves, besides becoming rancid and disagreeable to the sense of smell soon after contact with the air. Beware of such. Avoid them. Murray and Lamman's Florida Water is the purest and most institute of all perfunes. Experience of all perfunes, and the pure is and considerable sense of all perfunes. The contact of the sense of the sense of the purest and most institute that the sense of all perfunes. Experience of all perfunes are all the sense of the

Over a Million Dollars Saved.

GENTLEMEN:-" I had a negro man worth \$1 200 who took cold from a badhurt in the leg, and was useless for over a year. I had used overything I could bear of without benefit, until I tried the Mexican Mustan Liniment It soon effected a permanent cure."

Montgomery, Ala. June 17th, 1859.

"I take pleasure in recommending the Mexican Musang Linement as a valuable and indispensible article for Sprains, Soars, Scratches or Galls on Horses. Our me naveused it for Barns, Bruises, Sores, Rheumatism, &c., and all say it nots like megic."

Foreman for American, Wells Fargo's and Harnden's

" The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week, after she commenced to use your celebrated Mustang Lini-

Gloucester, Mass. August 1; 1865. It is an admitted fact that the Mexican Mustang Lir ment performs more cures in a shorter time, on man and beast, than any article ever discovered. Families, liv-ery-men and planters should always have it on hand Quick and sure it certainly is. All genuine is wrapped steel-plated engravings, bearing the signature of Wn. Westbrook, Chemist, and the private U.S. stamp No. westbook, defines, and the private of S. stamp Demas Barnes & Co. over the op. An effort has been made to counterfeit it with a cheap stone platelabel. Look closely !

Lyon's Kathairon.

It is a most delightful Hair Dressing. It cradicates scurf and dandruff. It keeps the head cool and clean It makes the hair rich, soft and gloss y.

It prevents hair turning gray and falling off. It restores hair upon permaturely bald heads. This is just what Lyon's Kathairon will! do. It 10 oretty—it is cheap—durable. It is literally sold by the

ear-load, and yet its almost incredible demand is daily does not keep it, or a family that does not use it.

E. THOMAS LYON, Chemist, N. Y.

Lyon's Flea Powder Lyon's Magnetic Insect Powder is instant death to

leas, Ticks, Roaches, and everything of the insec species. It is one of the few articles that can be relied ipon, and for a mere two bits we can save the bites and bills of these little pests. None is genuine unless signed by E. Lyon, and bearing the private stamp of Demas Barnes & Co., New York.

Lyon's Extract Ginger. LYON'S EXTRACT OF PURE JAMAICA GINGER -- for Indigestion

latulency, &c., where a warm stimulant is required. ts careful preparation and entire purity make it sheap and reliable article for culinary purposes. Sold everywhere, at 50 cts. per bottle. Ask for "Lyon's Puro Extract. Takeno other. Caution .-- See that the private U. S. Stamp of Dema

Plantation Bitters.

SLATES-Duchesses 24x12

scrofula, or King's Evil.

Is constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not deetroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the road of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrapt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul corruption, which genders in the blood, depresses the onergies of life, so that scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers

of other diseases: consequently, vast numbers perish by disorders which, although not scrofu-lous in their nature are still rendered fatal by

this taint in the system. Most of the consum

tion which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kid-neys, brain, and, indeed, of all the organs, arise

neys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Eruptive and Skir Diseases, St. Anthony's Fire, Rose, or Erysipelas, Pimples, Pustules, Blotches, Blains and Boils, Tumors, Tetter, and Salt' Rheem, Scald Head, Ringwood, Ringwantsh, Syphillitic and Merchinal Diseases, Dropsy, Dyspepsia, Debility, and, indeed, all Complaints arising from Villated or Impure Blood. The popular

FOR ALL THE PURPOSES OF A FAMILY PHYSIO, are so composed that disease within the range of their action can rafrely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: Costieness, Heartburn, Headache arising from a disordered Stomach, Nausca, Indigestion, Pain in and Morbid Inaction of the Bouels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions. CURES AND COMFORT FOR THE BED-RIDGEN.

And at every good Chemists' At ROTURIER,

-BY-

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consump-tion, and for the relief of Consumptive Holloway's Cintment.

So wide is the field of its usefulness, and so manerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior mendies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

description of property.

LIFE DEPARTMENT

This Institution accepts proposals at the rates of premium applicable to Europe, which on examination will be found more advantageous than those charged by other Offices having Agencies here. It unites all the advantages of a Mutual Association with the security of a Proprietary Company. The Participation Branch is conducted by the Proprietors of the Company for a charge of 10 per cent. on the premiums, witrout any other deduction whatever. Thus the assured enjoy the profit without the production that the continuation of the premiums and the profit with a Branch and the participation in profits has been most liberal. The participation in profits has been most liberal. Should claims arise before the next investigation, a prospective bonus of nearly 1/5 per cent. is allotted.
